Subject: RE: Walgreens - Ohio Dispensing Data

Counsel,

Walgreens inadvertently produced dispensing data for Cuyahoga and Summit Counties dating prior to 2006. Given the sensitivity of the data, and the court's orders regarding the temporal scope of discovery, we ask Plaintiffs to complete the following steps immediately.

1. Delete records prior to 2006 in any database for which the data has been loaded. We have provided a simple SQL statement below which may need to be adjusted if the data is being stored in another relational database management system.

```
delete from [schema].[TableName]
where year(fill_sold_dt)<2006
```

2. Confirm the record count of deleted records is equal to 2,065 and provide a screenshot of the completed delete statement.

If you haven't already, please also return the hard drive on which we shipped the data. Please let us know if you have any questions.

Thank you.

BartlitBeck LLP

Subject: Walgreens - Ohio Dispensing Data

Dear Counsel,

Walgreens has produced an encrypted hard drive containing dispensing data for Cuyahoga and Summit Counties to Pete Weinberger's attention at Spangenberg Shibley & Liber. Walgreens is producing this data to comply with the Court's orders and reserves all rights to object to the use of the data at trial or otherwise.

Walgreens produces this data pursuant to the protective orders in this case. The data is designated as Highly Confidential and Confidential Protected Health Information under those orders.

The password for accessing the hard drive is 82549253. The drive will auto lock if the wrong password is entered three times.

Enclosed with the hard drive is a chain of custody form. Please complete that form and return it to FTI Consulting at the address below. Please also return the hard drive to the same address:

Hannah Hamburger
FTI Consulting
227 West Monroe Street
Suite 900
Chicago, IL 60606

Thanks,

Sten
